Cross-category duplicate check — CLEARED

- "Shellac vs gel" → Cluster 3 only
- "How do I shape my nails" → Cluster 7 only
- "What nail design should I get" → Nail FAQs only
- "Nail glue vs super glue / glue safety" → Cluster 7 only
- "Alternatives to press-on nails" → Cluster 9 only
- Roundup/comparison/trend items previously miscategorized as Standalones → moved to Cluster 11 (Nail Design Styles & Roundups), since they need the same demand-research + cannibalization-check pass as any other cluster topic before being scoped as posts
- Previously "killed" trend items (Simple Nail Design Trends 2026, Bare Nails Trend 2026, Most Popular Nail Shape 2026, Nail Color Trends 2026) and the unscoped "Acrylic nails" term → restored under Cluster 11 per instruction, flagged with their overlap risk so the research phase resolves them properly instead of a premature kill
- New Pinterest-trend items (Clusters 12-14, Fall Nails spoke, and new Standalones #7-19) cross-checked against full existing site list and against all prior sections in this document — no duplicates found
